Sorry, I should have been more clear – we'd like the community to feel welcome, and scheduling a meeting at the same time as some other, more pressing (or more interesting) event will convey a message that we don't know or care about what's important to them.

I'll try to get hold of Virginia to see if she anticipates a conflict.

Both Jonathan and I checked with Kelly. I'm not sure that he provided either of us a response but he didn't say he couldn't be available. He also got sent the email on the days selected. Thanks for checking.

Jannine, have you checked with the Sho-Bans to see if these dates will work for them? If not I'd be happy to check in with Virginia Monsisco and see if she knows of any conflicts with our schedule. We could probably do the same for the local Pocatello / Chubbuck authorities ...
